DigitalGlobe Approach to Disaster Risk Management

Deep Expertise for Disaster Management

Before Disaster

- Satellite monitoring of ground info and identify risk
- Build elevation models to assess potential disaster risks

When Disaster Happens...

- Online access to Global Basemap (GBM) to retrieve images of impacted areas in seconds
- Access to other archives for customized solutions

DigitalGlobe Cloud Services

Disaster Response and Recovery

- Activate FirstLook Services to receive post-disaster images
- Analytics solutions to identify disaster impact and plan rescue efforts

RISKS AHEAD

FirstLook: Be the First to Know!

- Crisis platform provides rapid, web-based imagery of major global events:
- 1. Natural Disasters

Ex: Earthquakes, Fires

2. Manmade Crises

Ex: Large accidents, Terrorism

3. Human Interest

Ex: World Cup, Olympics

107 Events in 2012

~127 Events in 2013!

Zhouqu County, Gansu, China (After Mudslide, Aug 2010)

Identify damaged buildings that were surrounded by mudslide

You benefit from insight for emergency planning, damage assessment, and recovery.

FirstLook Asia Coverage 29 Events and 44,000 km2 Collected

Other China Events included:

- Gansu Earthquake: July 22nd 2013
- Typhoon Usagi: Sep 23rd 2013
- Heavy Rain in Guangyuan: July 22nd 2013
- Flood in Sichuan: July 12th 2013
- Lushan Earthquake: April 22nd 2013

Earthquake: Gansu, China Event Activation: 07.22.2013

China's Gansu province hit by powerful earthquakes

- BBC News July 22, 2013 1:24 pm

Image: Reuters News 7.22.2013

Flood: Chokwe, Mozambique Event Activation: 01.22.2013

Acquired: 06.19.2011

Acquired: 01.24.2013

Heavy rains in Mozambique caused the displacement of 55,000 people. The worst affected areas were in the southern Gaza province.

Fire: Dunalley, Tasmania, Australia Event Activation: 01.03.2013

Acquired: 08.27.2012

Acquired: 01.05.2013

Bushfires burned about 29,000 hectares in southeast Tasmania. In Dunalley, 65 homes and an elementary school were destroyed.

Tornado: Dallas, Texas, USA Event Activation: 04.04.2012

Acquired: 04.05.2012

Acquired: 03.11.2011

Rescuers searched the Dallas area for anyone trapped after violent tornadoes flattened homes, threw tractortrailers and sent debris swirling.

Man-Made: Brazzaville Explosion, Congo; Event Activation: 03.04.2012

Acquired: 03.10.2010

Acquired: 03.15.2012

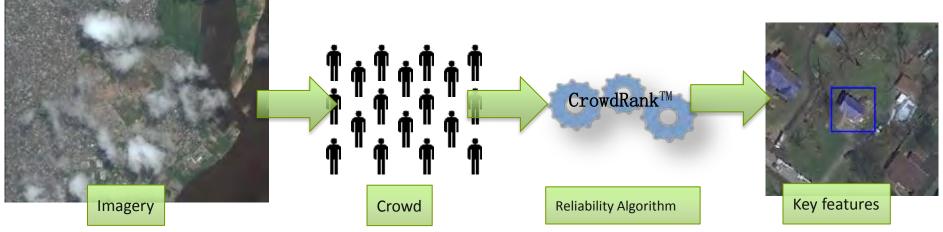

A series of large explosions killed at least 200 people in Brazzaville and shattered windows across the Congo river in Kinshasa.

FirstLook+ leverages Tomnod Crowdsourcing(TCS)

On April 2013 DigitalGlobe announced the acquisition of crowdsourced intelligence pioneer Tomnod (www.tomod.com) based in California

Solution: **FAST** Image insight by leveraging crowdsourcing **Problem**: Exploiting mountains of imagery

Crowd views small segments of imagery online and identifies key features:

FirstLook Key Benefits

Monitor World Events

> Remain informed and up-to-date on current events around the globe

Priority Tasking

> Take precedence in image collection scenarios

Finished Product

> Spend less time collecting, processing, and analyzing information

Fast Flexible Access

 Online subscription service provides fast, web-based access to pre- and post-event imagery of world disasters

Notification Service

> Email and RSS notifications sent for event activations and imagery availability

Insight Layers

> Using the crowd to rapidly convert Pixels to Information and Insight

Market Served

- > Insurance and reinsurance
- > Local and central governments; safety agencies: police, fire, ambulance, forest services
- > Defense and homeland security
- > Multinational and humanitarian agencies

The Analytics Power to Understand and Take Actions for Disaster Management

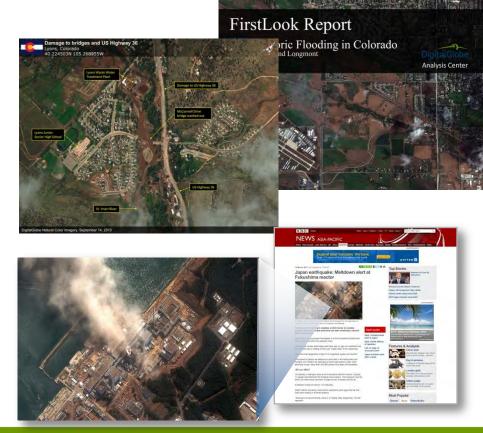

- Imagery + Analysis = Insight
- Empower better decision making
- Custom solutions for customers

USA Colorado Flooding 2013

The flood left nearly 18,000 homes damaged, 1,500 homes destroyed and more than 11,000 people under evacuation order. DigitalGlobe activated FirstLook Service and collected more than 21,000 km2 of imagery and provided them along with actionable information to first responders on the ground like The Red Cross and National Guard.

Japan Earthquake 2011

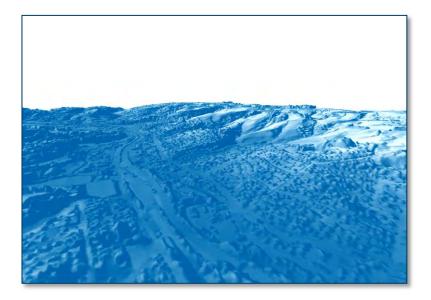

In the aftermath of the tsunami, more than 95,000 downloads of imagery and analysis details of the damaged Fukushima Daiichi nuclear power plant were downloaded from our website.
