VG Objectives

- Communication and information platform
- Searching, retrieving, and filtering place-based disaster information and disaster management knowledge
 - UN-SPIDER KP archives, Technology guides, disaster reports, published maps, regional project initiatives, expert profiles, etc.
 - View-based search
- Information found - planning and decision making about relevant space-based services needed to manage a disaster phase

SAM Next Steps

- Engineering SAM into KP
- “Re-skin” - different themes of 3 dimensions
 - Human Aspects
 - Ex- health, critical infrastructure, humanitarian aid, security
- Usability testing
