

# GP-STAR

Mexican Space Agency

AEM

To create a long term partnership that will share state-of-the-art technology to tackle disaster risk reduction, particularly with the least developed countries.

- What activities, projects, programmes can you affiliate/contribute to GP-STAR

Dissemination of the Platform and its products in the LAC Region;

Try to bring together LAC countries not present in this meeting to join the initiative, specially Argentina , who has one of the leading space agencies in the region.

- What outcomes (procedures, products, information, knowledge, know-how) can you contribute

Draft procedures to be approved by the initiative.

- What role and working field in GP-STAR do you foresee for your organisation

Providing guidelines to emerging space agencies in the region and support to those countries who still don't have space activities.
