

SPACE SOLUTIONS FOR EMERGENCY RESPONSE AND DISASTER MANAGEMENT :

From Emergency Response to Risk Reduction

Reducing vulnerabilities to
hazards through good
practices in geospatial
information management

13 June 2014

UNITED NATIONS
Office for Outer Space Affairs

Rio+20: THE FUTURE WE WANT

Para 274

We recognize the importance **of space-technology-based data**, in situ monitoring, and **reliable geospatial information** for sustainable development policy-making, programming and project operations...

Space-based Information for Disaster Management and Emergency Response (UN-SPIDER)

- “Ensure that all countries and international and regional organizations have access to and develop the capacity to use all types of space-based information to support the full disaster management cycle.”
 - Especially by being **a gateway** to space information for disaster management support;
 - serving as **a bridge** to connect the disaster management and space communities; and
 - being **a facilitator** of capacity-building and institutional strengthening (A/RES/61/110).

UNITED NATIONS Office for Outer Space Affairs

Knowledge Portal

- The UN-SPIDER Knowledge Portal is a web-based tool for information, communication and process support

Fostering Cooperation

- UN-SPIDER fosters alliances and creates forums where both space and disaster management communities can meet

Capacity Building

- UN-SPIDER facilitates capacity building and institutional strengthening

Technical Advisory Support

- UN-SPIDER provides support to countries in assessing national capacity and in evaluating disaster and risk reduction activities, policies and plans

un-spider.org

- A web portal for information, communication, and process support. A platform which supports knowledge management, capacity building, technical advisory support and support to emergency and humanitarian assistance

The screenshot shows the UN-SPIDER website interface. At the top, there is a blue header with the United Nations logo on the left, the text "UNITED NATIONS | UNOOSA | UN-SPIDER" in the center, and "English Español" on the right. Below this is a search bar with the text "Search..." and a magnifying glass icon. A navigation menu follows with buttons for "HOME", "SPACE APPLICATION", "ADVISORY SUPPORT", "LINKS & RESOURCES", "KNOWLEDGE BASE", "NETWORK", "PROJECTS", and "ABOUT US". Below the navigation menu is a green banner with the text "IN FOCUS". Under this banner, there are three main sections. On the left, there are three smaller sections: "Call for Experts: UN-SPIDER Mission to Mongolia...", "UN-SPIDER pre-conference event at AMCDRR...", and "ASEAN Workshop in Indonesia concluded UN-SPIDER...". In the center, there is a large image of a satellite view of a landscape with a body of water, overlaid with the text "Call for Experts: UN-SPIDER Technical Advisory Mission to Mongolia" and "UN-SPIDER invites applications from representatives of relevant institutions, organizations,..." with a "Read more" button. On the right, there is a section titled "UN-SPIDER WORLD" with a map showing various locations marked with colored dots, and the text "UN-SPIDER-World" and "See a geographical representation of news, events, contact points, etc."

UN-SPIDER

UNITED NATIONS
Office for Outer Space Affairs

Technical Advisory Mission

- Vietnam
- Ghana
- Malawi

UN-SPIDER Activities **2013**

Training

- Bangladesh
- Sudan
- Dominican Republic
- Mozambique
- Indonesia

Workshops/conferences

- United Nations/**Germany** Early Warning Expert Meeting, Bonn
- UN/China International Conference, Beijing
- Training on Flood Risk Mapping, Modeling and Assessment using Space technology, Beijing

UNITED NATIONS
Office for Outer Space Affairs

Technical Advisory Mission

- Kenya, 3-7 March 2014
- El Salvador, 2-4 April 2014
- Zambia, 26-30 May 2014
- Bhutan, 2-6 June 2014
- Mongolia, 11-15 August 2014

UN-SPIDER Activities **2014**

Training

- Vietnam, 3rd week September 2014
- Sri Lanka, 1st week November 2014
- Bangladesh (tbc)

Workshops/conferences

- El Salvador, 31 March and 1 April
- Indonesia, 15-17 April
- Nepal, 9-13 June May
- Germany, 5-6 June
- China, 15-17 September and 18-23 September

UNITED NATIONS
Office for Outer Space Affairs

Opportunities for collaboration

- Contributing data and knowledge to UN-SPIDER Portal
 - Open and free data sources
 - SOPs, guidelines, reference materials, solution development and hosting of services
- In-kind contributions
 - Technical Advisory Missions: expert time (1 week)
 - Training programme: trainers (1 week), data, software, venue
 - Contribute to UNOOSA Staff development with short-term training
- Secondments of experts to Beijing, Bonn, Vienna, Regional Support Offices
- Joint outreach events: conference, workshops, side-meetings

UNITED NATIONS Office for Outer Space Affairs

Achievements

- Providers of data and products have better (some) understanding of end-users requirements and expectations (*Outreach*)
- Discovery of resources is catalogued according to end-users “vocabulary” (*Portal*)
- EO brought into decision-making for DRR/ER (*TAM*)

Challenges

- DRR/ER authorities still see EO products as complex and overpriced (*they are but there are ways!!!*)
- DRR/ER authorities in developing countries are ill-equipped and do not always prioritize adequately
- High Res is great but is not solution to all problems
